A dumbwaiter can make your life so much easier as it takes all the hard work out of lifting and keeps you safe.

## What is a dumbwaiter?

A Dumbwaiter is a small freight elevator (or lift) that is specifically designed to carry materials from one level to another.

These materials can be just about anything you don't want to lift yourself-groceries, baggage, large loads of laundry, racks of cutlery or crockery, small items of furniture and much more. Dumbwaiters can be used in both residential and commercial properties.

With the dumbwaiter, moving goods and supplies in your multi-storied home is now fast and easy.

## How is it useful for me?

Do you have trouble lugging your groceries, luggage, laundry or other heavy items up and down the stairs? Don't risk an injury that can cause you serious pain and keep you out of action for a while. A dumbwaiter can make your life so much easier as it takes all the hard work out of lifting and keeps you safe.
